

# LineCountingBufferedReader

2008-03-31 19:13:25

Häufig benötigt, einmal kurz notiert: LineCountingBufferedReader.

```
import java.io.BufferedReader; import java.io.IOException; import java.io.Reader; /** * @author M. Serhat Cinar */ public class LineCountingBufferedReader extends BufferedReader { private int count = 0; /** * @param in */ public LineCountingBufferedReader(Reader in) { super(in); } /** * @param in * @param sz */ public LineCountingBufferedReader(Reader in, int sz) { super(in, sz); } public String readLine() throws IOException{ count++; return super.readLine(); } public int getLineNumber(){ return count; }}
```
